The following is general information for your consideration during this drill.

Station Type:	Packet Station #1
General Situation:	This is Day 2. A major earthquake occurred yesterday on the Hayward Fault, rupturing just south of Fremont. The main shock lasted 45 to 60 seconds and was followed by aftershocks of another 3 minutes. There was no other warning. Shaking was felt in Oregon to the north, Los Angeles to the south, and Nevada to the east. The estimated magnitude is M 7.2 with reports of severe to violent shaking, with heavy damage in widespread areas of the most severely affected counties. Most power and commercial communications is out. On arrival, you find the Skilled Nursing Facility and locate your contact.

PACKET STATION INSTRUCTIONS:

Your assignment is as follows:

Event:	Hayward Fault Earthquake
Facility:	The Forum at Rancho San Antonio
Address:	23500 Cristo Rey Dr, Cupertino, CA 95014
Assignment:	Packet operator at this SNF to communicate with County and Cupertino EOC.
Power:	Power is per your situation
Operational Period:	Day 2, Op Period #2
Supervisor/Contact on arrival:	Kathy Hudson, Head Nurse
Your Tactical Call:	CUP001
Your Message ID Prefix:	C01
City BBS Notice Area:	CUP@XSC
BBS:	W1XSC
SCC EOC mailbox:	XSCEOC@w1xsc
Cupertino EOC mailbox:	CUPEOC@w1xsc
Voice Comm with EOCs:	SCC EOC: 147.360 + Tone=110.9 W6TI Cupertino EOC: W6TDM 440.150- PL=100.0

Station Type:	Packet Operations #1

You will be presented with messages and/or reports that come to you either from the Skilled Nursing Facility Director or from other walk-up staff members (both simulated).

1. Assignments like these make you "the eyes and ears" for County Public Health as well as Cupertino EOC.
2. The County Public Health Department is not staffing their EOC. All PHD-related messages should go to SCC EOC.
3. Send **ALL** packet messages to both XSCEOC@w1xsc and CUPEOC@w1xsc.
4. The SCC PHD packet station is not staffed but SCC PHD personnel are operating at the SCC EOC.
5. Follow all guidance per the SCC RACES Recommended Form Routing.
6. Respond to all other packet message requests as appropriate.
7. Substitute <Facility> in any message with your Facility Name and the Time <HH:MM> with the time now.
8. Note the Time now (HH:MM). Next to each message below, add 10 to 20 minutes to the time of the last message to identify when this one should be sent.

TIME NOW: _____
